FREE initial consultation

Let's take 30 minutes to see how we can make a difference together? Initial consultations are FREE to new clients, to discuss your business, goals and struggles. We can discuss how much or little help you need. Either face to face, remotely or over the phone? Which ever works for you.

No minimum contract term or hours.

It can be daunting taking on a professional when your business is still growing which is why we stand by our no minimum work package. You choose what and when you need from us and we only charge for the work we do.

How much?

We charge a flat fee of £25 per hour for all services unless discussed prior. We suggest a new client starts with a minimum of 5 hours per week and assess over time, although this isn't compulsory. All clients are invoiced monthly and we only charge for the work completed. If you need to take a break in your service or increase hours for a special project we also try our best to remain flexible.
